

# Social Media Posts

## For promoting Fujitsu Client Computing Devices

Use these posts to draw attention to Fujitsu Client Computing Devices on social media platforms. You can link the posts to information of your choice on your own site, and also combine posts with the visuals shown.

Posts are provided for LinkedIn, Facebook and Twitter. Feel free to mix and match posts as appropriate for your needs, and link with the stories that you think will be most compelling.

The Facebook and Twitter posts are shorter and more informal, but – since this is a business solution – they are not as “chatty” as they would be for consumer products. They can therefore be used interchangeably with the LinkedIn elements.

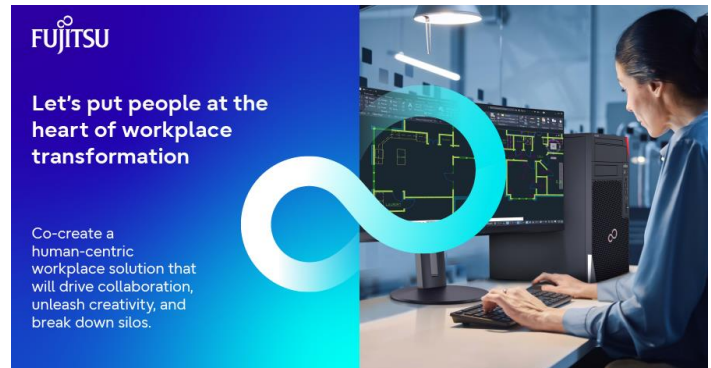

## LinkedIn

### Text

True workforce transformation requires more than just technology. It requires a shift in a workplace culture where people are placed at the heart of new ways of working. People should be free to find the balance between working at home and in the office that suits the way they want to live their lives. That is what Fujitsu offers.
