

Take the lead in the race for agility and efficiency with HCI

Discover Fujitsu HCI
Bundles for VMware

Quick, efficient adoption of VMware HCI with ease

Hyper-converged infrastructures (HCI) are transforming the economics of IT, creating a next-generation data center foundation that's agile, cost-efficient and resilient – they also dramatically simplify the path to hybrid IT. With the **HCI Bundles for VMware based on the Fujitsu Integrated System PRIMEFLEX for VMware vSAN**, Fujitsu provides everything you need to improve the lifecycle experience of a VMware HCI environment – the hardware, software and expert services making deployment, operation, scalability, and maintenance a breeze.

To get your journey to HCI started smoothly, Fujitsu offers three pre-configured and pre-tested configurations that are adaptable to diverse workloads and scale.

- Hybrid and all-flash models for a wide range of performance and capacity needs.
- Tailored to support capacities varying from 9.6 TB to 16 TB of raw storage per node.
- 3-node base packages powered by the VMware HCI 6 Kit Essentials
- 3 years 24x7 maintenance and support for the complete hardware and software stack – with a single point of contact.
- Standardized on-site implementation service for 3 nodes with single price tag and order number.
