How to make new work more sustainable

Fujitsu’s sustainability initiative encourages collaboration between all companies roles. First of all, the IT department to implement energy efficient systems and the business managers to develop sustainable strategies. We also hold employees accountable for engaging in environmentally sustainable practices, fostering a company-wide culture of environmental responsibility and innovation.

68% of companies prioritize sustainability in their business*

53% of employees see sustainability as priority**

50% of companies see sustainability as a reason to satisfy customer expectations*

*Fujitsu Global Sustainability Transformation Survey Report 2023
Fujitsu fosters collaboration among its departments through its sustainability initiative.

How do we manage to be more sustainable?
Get inspired by our tips to promote an even more sustainable working environment

**Ecological**
- Remote work: promote and support remote work options whenever feasible
- Green infrastructure: skip standby, switch off when not in use, leverage automatic screen settings
- Data usage: be conscious of the data you create, send, distribute and store

**Societal**
- Community engagement: IT-related people engaging with other departments
- Well-being: foster a healthy work-life balance by promoting flexible work schedules and discouraging long working hours
- Skills development: provide trainings and courses to enhance professional skills

**Economical**
- Cost optimization: cross-departmental knowledge-sharing sessions
- Partnership with sustainable suppliers: to partner with suppliers and vendors who prioritize sustainably and ethical practices

Fujitsu fosters collaboration among its departments through its sustainability initiative.

IT Department
- develop sustainable strategies, promoting eco-friendly product design and responsible sourcing
- implement energy-efficient systems, virtualization and cloud computing

Business Managers
- foster a company-wide culture of environmental responsibility and innovation

Employees
- foster a company-wide culture of environmental responsibility and innovation

Our purpose
- make the world more sustainable by building trust in society through innovation.

Together
- we foster collaborative efforts and create a culture of sustainability, helping to build a greener and more responsible future for the company.
Nowadays companies are facing a lot of challenges to realize sustainability:

- CSDR - Corporate Sustainability Reporting Directive
- "Rules of the business"
- Integration of sustainability strategies
- War of talents
- Idealistic layer

How green is your company?
Take the test and find out!

Here is a simple and short quiz to measure sustainability factors in your company, assigning points for each question. Choose between yes and no and check below the result, let’s go?

1. Does your company have a formal sustainability policy in place? (10 points)
2. Are energy-efficient practices implemented, such as paperless, automatic power-down options? (5 points)
3. Are employees provided with education and training on sustainability practices? (5 points)
4. Does the company promote eco-friendly commuting options, such as carpooling or public transportation? (5 points)
5. Are sustainable sourcing and ethical supply chain practices considered when selecting suppliers/partnerships? (5 points)
6. Has the company set measurable sustainability goals and established key performance indicators (KPIs)? (10 points)
7. Does the company engage in community outreach or philanthropic activities related to sustainability? (5 points)
8. Is the company involved in any certifications or recognized sustainability initiatives? (5 points)
9. Does the company regularly track and report its sustainability performance to stakeholders? (5 points)

Check your outcome:

- **40-50 points:** High level of sustainability commitment and performance. Congratulations!
- **30-39 points:** Moderate sustainability practices. There is room for improvement.
- **Below 30 points:** Limited sustainability efforts. Significant room for improvement.
