SNP | The Data Transformation Company

SNP SE

INTRODUCTION

DESIGN MANUAL

This manual describes the visual elements that represent SNP's corporate identity. They include our name, logo and other elements such as colors, typography and graphics.

Every one of us is responsible for protecting the company by preventing unauthorized or improper usage of the SNP name and brand.

Communicating a controlled message is important in order to present a strong, consistent corporate image.

This manual reflects SNP's commitment to quality, consistency and style. The SNP brand, including the logo, the name, the colors and the identification of elements, are valuable assets for the company.

01 CORPORATE LOGO

Our logo is the cornerstone of our identity and the primary visual element that identifies us. The signature is a combination of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

Corporate Logo and Typography
Logo Structure, Free Space and Dimensioning
Logo Usage

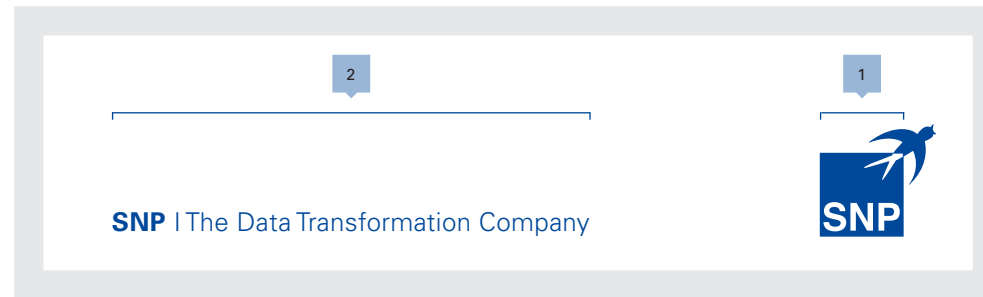

CORPORATE LOGO AND TYPOGRAPHY

The corporate logo consists of two elements: the logo symbol and the logo typography.

The logo typography is characterized by a modern and legible quality, which has been further improved by the use of capital letters. The font is Univers LT Std 65 Bold and forms a single entity together with the logo symbol.

The primary corporate color is SNP Bluefield Blue and stands for the company's values: modern, classic, timeless.

You can find more details on the corporate colors from page 15 onward.

1) Logo Symbol

This consists of a square bordered by the three letters "SNP" and the SNP swallow.

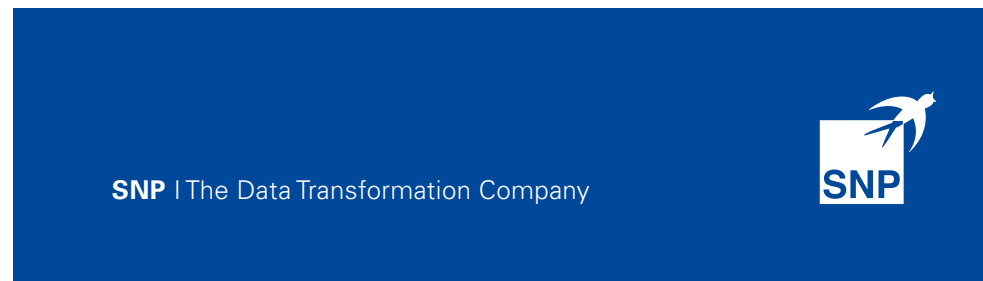

The logo symbol is independent and can be placed alone.

The main logo is the blue logo, which is used on a white background. You can find alternatives for blue backgrounds or darker backgrounds below.

The logo is located on the right-hand side in the format and always displayed along with the SNP claim.

2) SNP Claim

The SNP claim is always displayed alongside the logo. The fonts used here are Univers Bold and Univers Light. The SNP claim is always located on the left-hand side in the format.

3) Negative variant

The negative variant is used when the background color is SNP Bluefield Blue or darker.

The recommended formats are:

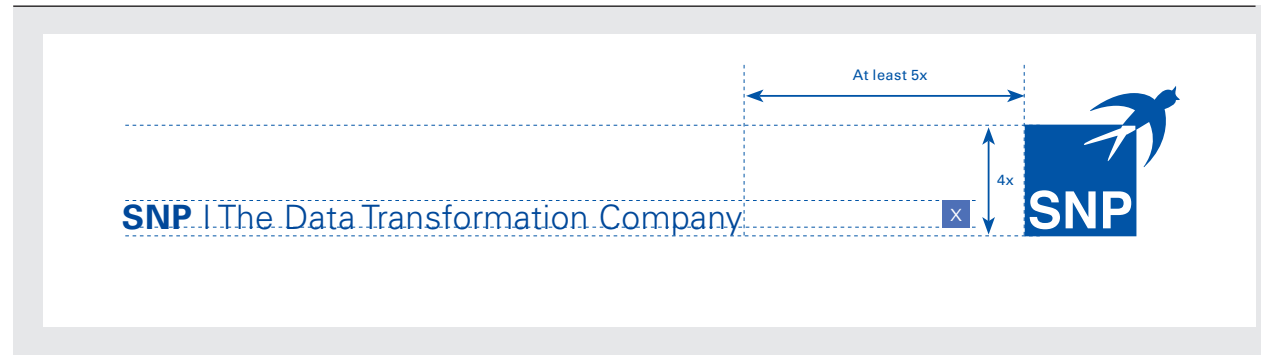

.eps | .ai | .png | .jpg | .tiff

3

LOGO STRUCTURE, FREE SPACE AND DIMENSIONING

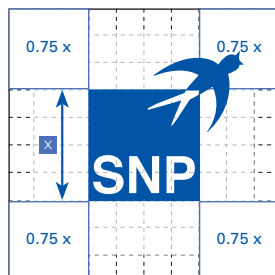

It is important to maintain the distances to other graphic elements. To ensure this, we have defined a fixed exclusion zone around the logo and the SNP claim.

The specified values have a fixed relationship to the logo and must not be changed in any way.

FREE SPACE

Logo Symbol

FREE SPACE

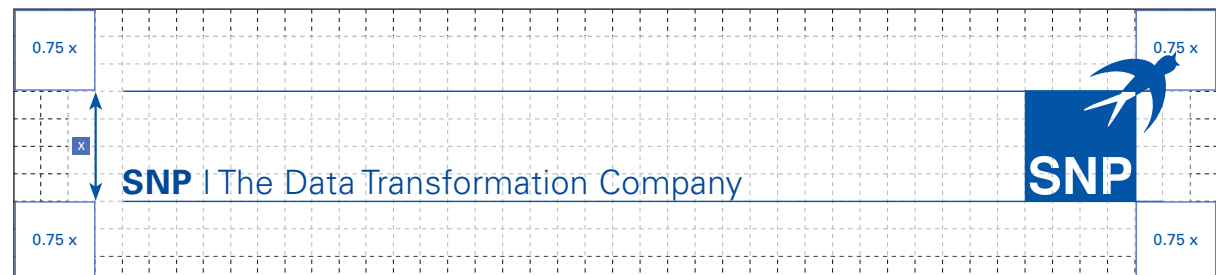

Logo and SNP claim

Definition

Whenever you use the logo, it should be surrounded by free space to ensure its visibility and impact. You must not use other graphic elements within this zone.

Dimensioning

Use the height of the logo to calculate the free space.

LOGO USAGE

LOGO A

blue version

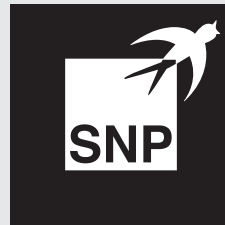

LOGO B

white version

LOGO C

white version

LOGO CENTERED

with web address

The logo can also be centered and placed together with the SNP claim or the web address. The total height is 9.5x. The height "x" refers to the letter height of the web address.

MINIMUM LOGO SIZE

Minimum size: 5 mm x 5 mm

PARTNER LOGO

02 CORPORATE TYPOGRAPHY

Typography is an important part of SNP's corporate design. It comprises our visual representation internally and externally and is derived from our corporate identity. The aim here is to ensure

consistent visual positioning and profiling. The typography helps to present a consistent corporate image for SNP both internally and externally.

03 TYPOGRAPHY AND TEXT HIERARCHY

Typographic hierarchy is another way to represent the company visually. It helps in determining the priorities within the overall layout structure and guides the reader when they are scanning the text.

Typographic hierarchy creates a contrast between the various elements in the layout. There are many ways to create a layout with a text hierarchy.

04 CORPORATE COLORS

Color plays an important role within SNP's corporate identity system. A range of primary and secondary colors has been developed to reinforce SNP's corporate design.

The consistent use of these colors will help to ensure a cohesive and harmonious image for SNP's brand identity across all relevant media.

SNP Primary Color System
SNP Secondary Color System

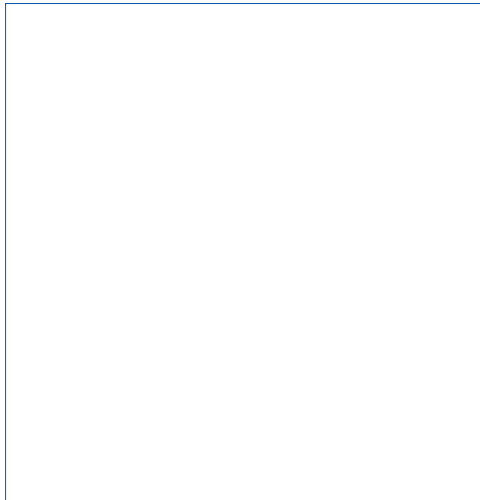

PRIMARY COLOR SYSTEM

Explanation

The SNP Group has an official primary color: SNP Bluefield Blue.
This color is a fixed identifier for the company.

Usage

Use the primary color for all internal and external
visual presentations of the company.

PRIMARY COLOR SNP WHITE

COLOR CODES

CMYK : 0 0 0 0
RGB : 255 255 255
Web : #ffffff

PRIMARY COLOR SNP BLUEFIELD BLUE

COLOR CODES

CMYK : 100 75 0 0
Pantone : 286 C
RGB : 0 72 153
Web : #004899

SECONDARY COLOR SYSTEM

Explanation

The secondary colors complement the official colors but are not discernible identifiers for the company. Secondary colors should be used sparingly.

Usage

Use the secondary colors to accentuate and support the primary color palette.

05 CORPORATE STATIONERY

Corporate stationery is a primary means of communication, and it is important that its usage consistently reflects our corporate identity too. There is only one approved design for letterheads, envelopes and business cards.

In addition to being recognizable, practical use must be guaranteed, especially for corporate stationery.

06 CORPORATE PRINT MEDIA

The SNP corporate print media include all printed information material such as product folders, Success Stories and Advertisements for internal and external communication. Here, the interplay between the logo, typography, photos and colors presents SNP's corporate image like no other medium.

Therefore, it is extremely important to observe the guidelines in the SNP Corporate Design Manual – especially in the case of print media. The SNP Marketing team will be happy to assist you with any questions you may have regarding the implementation of the guidelines.
