

Your trusted partner for digital education

Fujitsu and Windows 11:
the smart way to meet digital
schooling challenges

Start

Keep the focus on school

Schools as a digital space

Schools everywhere are gearing up for a future in which blended learning, combining digital and traditional approaches inside and outside the classroom, will be the norm. Teachers, pupils and their parents need modern equipment to work effectively within this digital education space.

With Fujitsu, you'll gain versatile, easily accessible devices that keep you secure from cyberthreats, deliver efficient and reliable performance and lead by example on eco awareness.

Devices for education

Our recommendations:
Attractive. High-quality. Reliable. Eco-aware.

For educators
Go-anywhere devices
that handle a wide range
of apps with ease

For students
Smart, stylish
performance for efficient
working and sharing

For parents
Excellent security, easy to
configure, reliable long-term
quality at affordable prices

Why Windows devices for education?

 Windows 11

Keep the focus
on school

Accessibility for all

Comprehensive security & privacy

Built for learning, anywhere

Windows devices paired with Microsoft Education

Gain out-of-the-box accessibility tools for children of all abilities.

Get integrated learning tools to help kids master reading, writing, and math.

Use digital pen to write and draw.

Access files and apps with voice and gesture.

Safeguard students and teachers from cyberthreats.

Guard against unsafe websites, malware, and phishing.

Protect devices against unauthorized users.

Maintain student privacy at school and off-site.

Help deliver safe, high-quality learning at school and online.

Access a wide range of affordable device options.

Enable low-touch deployment and management with cloud services.

Collaborate and create with virtual classrooms.

Tablet PCs

Tough and powerful for learning and teaching

From school to home desk, from playroom to classroom, pupils (and teachers) are likely to use devices just about anywhere. Fujitsu offers robust, portable tablets that can withstand tough school routines.

STYLISTIC Q5 Series

Compact, lightweight tablet with a detachable keyboard and long battery times. Extremely robust, making it ideal for tough handling in school environments. Supports input-based lessons to facilitate the introduction to digital learning.

STYLISTIC Q7 Series

Work inside the classroom: with its high-resolution matt display, this tablet goes everywhere. It features a detachable keyboard, stylus and durable battery for demanding learning tasks.

Notebooks

Versatile and flexible wherever you go

Teachers and older students need powerful devices that empower them to work whenever and wherever they choose to. The Fujitsu LIFEBOOK portfolio gives you flexible choices – with individual configurations from entry-level devices to ultimate performance.

LIFEBOOK A Series

The LIFEBOOK A series provides comprehensive performance with a lean design (< 2 kg) and has everything teachers and students need in their day-to-day lives.

LIFEBOOK U Series

A lightweight, slimline notebook with high-end specs, a robust design and extended battery life to keep on the go during long school days.

LIFEBOOK E Series

Durable, maintenance-friendly notebooks, with easy-to-replace components: ideal to upgrade functionality at a later date.

Desktop PCs

Space-saving performers for home learning

Fujitsu ESPRIMO Desktops are the most energy-efficient desktop PCs on the market. They are also engineered to be super-quiet and space-saving: perfect for busy homes where space (and silence!) are usually at a premium.

ESPRIMO G Series

Mini PC for serious learning in school or at home: the ESPRIMO G takes up your challenges, not your space.

ESPRIMO D and P Series

Great performance and maximum energy efficiency for a perfect work environment.

All-in-One Display P2410

Clean up your desk with space saving and secure solution like universal display unit for Mini PCs like ESPRIMO G Series to be connected with only one cable.
