

Fujitsu UVance

Transform your OR with Surgical Capacity Optimization

No guesswork.
No missed opportunities.
Just precision perioperative scheduling.

FUJITSU

Your challenge:

Between complex variables such as OR availability, surgeon preferences, and patient needs, surgical scheduling can be hard to plan effectively. While dedicated perioperative teams strive to do their best day in and day out, the nature of this process is simply not well suited to manual planning or the products available in the market today.

Our solution: Surgical Capacity Optimization

The Fujitsu solution gives perioperative teams the data-driven insights they need to create the optimum OR schedule – uncovering new surgery time and boosting utilization rates.

By empowering productive communication based on precise, historical and scheduled data, hospitals can ensure block time allocations truly reflect demand.

Our mathematically validated recommendations consider multiple factors and ensure the best, most efficient outcomes for surgeons, facilities, and patients alike.

Our Generative Block Scheduling Wizard™ feature lets teams confidently model scenarios and analyze the impact before taking action.

All of which enables perioperative leaders to collaborate with clinicians to make confident changes in the pursuit of optimal productivity.

Win an Apple Watch

What are your biggest scheduling challenges? Share your thoughts on our Opinion Wall at **Booth #506** to be entered into a prize draw to win an Apple Watch. We'll announce the winner at our booth on **19 September at 3:30 pm**.

Good luck!

Breakfast Presentation: Tuesday, September 19

You're invited to join selected industry speakers for our breakfast Panel Discussion: **Welcome to the Inflection Point of OR Planning and Performance**. The session, sponsored by Fujitsu, will cover:

- How decision science can enhance OR planning and performance.
- How to stabilize surgery days and reduce unplanned disruptions
- Recommendations for transforming OR planning habits.

Come along to meet the panelists:

- **Maria Cabrera**, MA, MSN, RN, CNML, Director of Surgery, Perianesthesia Services & Specialty Areas, Doctors Hospital
- **Robert W. Choquette**, BSN, RN, Director Ambulatory Surgery Center, Baptist Health Surgery Center Coral Gables
- **Randy Heiser**, MA, BA, President, Sullivan Healthcare Consulting LLC
- **Claudia Cambero**, PhD, Healthcare Operations Research Scientist, Fujitsu
- **Christian Gregory**, Solution Innovation Consulting, Fujitsu

When and where

Tuesday, September 19 | 6:45 am – 8:05 am | 4th Level, Ballroom BC
