

# Fujitsu Cashier-Free Store

## Reimagine customer experience with Fujitsu's cashierless platform

**Register** – download the app and link your profile, account and payment details

**Enter the store** – scan a QR code, swipe your credit card or use touch-free biometric ID

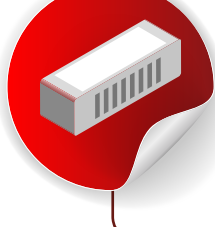

**Shop** – in a simple, frictionless way, picking up products on the go

**Exit the store** – simply walk out. The app calculates your spend, charges your account and sends you a receipt

## Fujitsu's revolutionary cashierless shopping experience

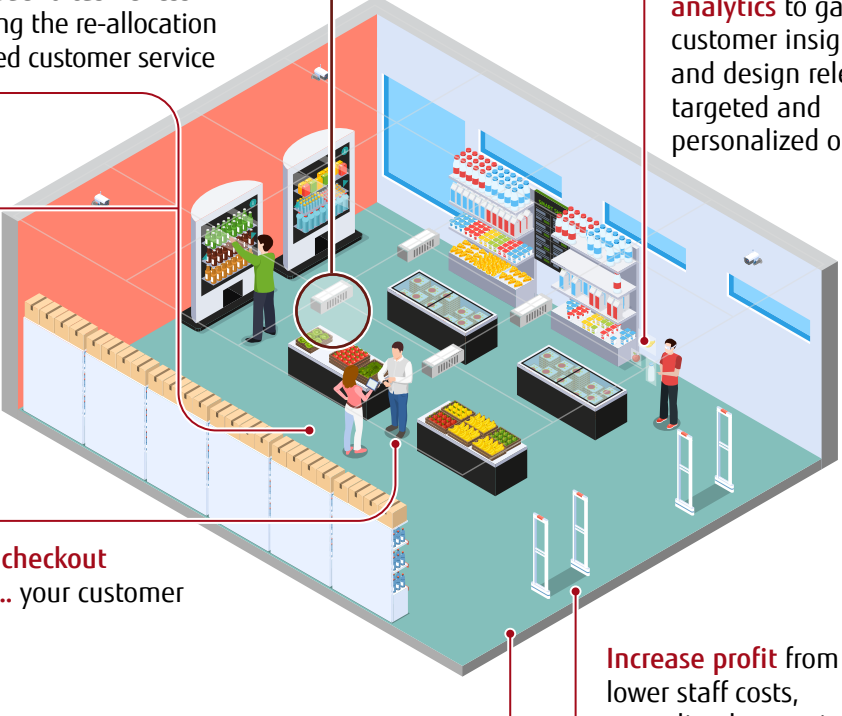

Highly accurate, low-cost multi-camera tracking coupled with weight sensors updates customer cart, charges the customer and updates inventory when they leave.

Lower staff costs due to cashierless operations, allowing the re-allocation of staff for improved customer service

Leverage valuable analytics to gain customer insights and design relevant, targeted and personalized offers

Build customer loyalty through fast and efficient shopping experience

Eliminate expensive checkout systems and queues... your customer is the cashier

Increase profit from lower staff costs, streamlined operations and higher sales per square foot

Fujitsu Cashier-Free Store fits everywhere, whether you're retrofitting a supermarket or convenience store, setting up a new specialty market, or just adding an extra aisle

## Increased profitability

## Explore the world of cashierless shopping with Fujitsu
