

Smart players adapt everywhere.

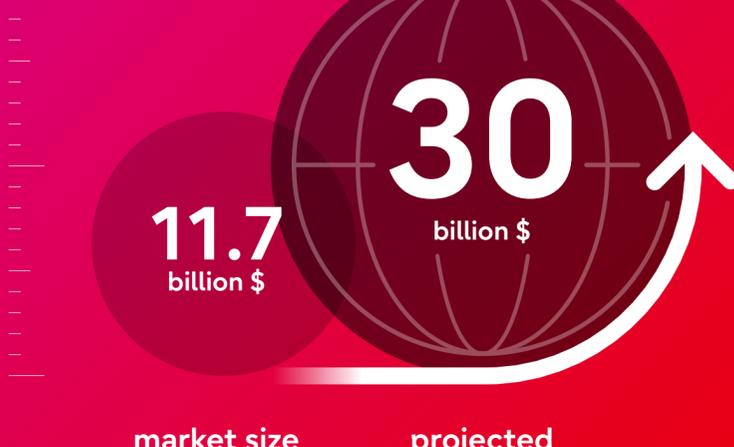

uSCALE for Virtual Desktops by Fujitsu

#dontworryWORKhappy

VDI is huge. Global demand is surging:

* Source: Facts and Factors 2022, Virtual Desktop Infrastructure Market Report, Perspective, Comprehensive Analysis, and Forecast, 2021 – 2026

So, just equip employees with mobile devices – and the VDI job is done? There are way more tasks!

VDI from Fujitsu:

- Industry-leading VMware technologies
- Secure, reliable Virtual Desktop Infrastructure
- Everything bundled into a single, scalable VDI service: hardware, software, licenses for frontend and backend
- Pay-as-you-go service models with uSCALE incl. VCPP license integration and device management for Windows and Linux

...and above all: excellent enterprise security for information assets.

Staying secure Security = number one priority

Healthcare
patient data security

Manufacturing
patent-protected engineering solutions

New work
flexibility & infrastructure design

Finance
ease of scalability, granular management, customer data security

For these (and other) sectors, security is a make-or-break issue.

Fujitsu provides zero-compromise system and data integrity.

Pay-as-you-go VDI with uSCALE

Why pay more for VDI than you need? Fujitsu provides you with an infrastructure that integrates optimal license utilization: **one seat, one price, no worries!**

uSCALE: the flexible, on-premises IT infrastructure as-a-service solution from Fujitsu for datacenter

- Monthly consumption-based billing based on actual usage
- No major upfront capital investment – better cash flow with pay-as-you go
- 100% alignment with demands of business
- Instant business agility
- Headroom to invest in strategic projects

Fujitsu takes care of everything

You choose which devices you need, depending on user profiles:

Front-end devices (company specific)			
VMware workspaces			
Physical		Virtual	
Standard users: ThinClient	Power users: Workstations	Nutanix XFI device VMware Horizon GPU-enabled Nutanix XFI device VMware Horizon	
Windows 2019 Server NetApp ONTAP		NetApp Cloud Volumes ONTAP	
Secure network capability for e.g ZTNA, Unified Access Gateway			

Discover Fujitsu-based VDI-as-a-Service

Everything is from one source – no need for DIY. This enables you to:

Drive operational efficiency

Better manageable costs

Implement a replicable end-user experience at scale
