Fujitsu Reference Architecture for VMware Cloud Foundation

Use these posts to draw attention to the Fujitsu Reference Architecture for VMware Cloud Foundation on social media platforms. You can link the posts to information of your choice on your own site, and also combine posts with the visuals shown.

Posts are provided for LinkedIn, Facebook and Twitter. Feel free to mix and match posts as appropriate for your needs, and link with the stories that you think will be most compelling.

The Facebook posts include brief intros that you can use as part of posts leading into the main story. Twitter posts are slightly more informal, but – since this is a business solution – they are not as “chatty” as they would be for consumer products. They can therefore be used interchangeably with the LinkedIn elements.
